Subject: Secretariat Action Items - June GLEC

Just as a refresher, the action items from the June GLEC meeting follow:

It was decided that:

- Secretariat make GLEC presentations available on SharePoint
- Annex 1 AOC to distribute situation analysis report to GLEC members and AIR guidance
- Annex 2 to post lamp following co-chair approval and Nearshore Framework to be reviewed and finalized following comment period as necessary
- Distribute the June 2016 GLEC draft meeting summary
- Post the Groundwater Final Report
- Progress Report of the Parties input from GLEC Members and Observes by June 10
- Priorities for Science and Action input from GLEC Members and Observers by June 30
- Submit preference for dates to Secretariat – (Assuming this was for the Dec GLEC)

We are moving the boat, with a few documents floating, but should be scratched off the list before the Dec GLEC meeting.
